Hi Francesca and Marti,

Checking to see if there are any issues with the attached set of ORD technical edits/comments, particularly the comments I highlighted in green.

Thank you,

Maureen

All,

Please find attached the narrative set of ORD technical edits/comments for the OIG SI report.

Before the comments are sent to the IOAA, could OSAPE please review a handful of the **green highlighted** comments to ensure the message is captured correctly?

Thank you,

Maureen

Hi all,

For ORD's edits/comments, I can translate the bubble comments into a narrative format identical to the attached SI committee comments. That way all of ORD's comments will be from 'ORD' and can be easily viewed.

If there are any objections with this approach, please let me know. Thank you.

Subject: Specific comments on the draft IG report on Scientific Integrity

Hi, attached is an IG report with some comments embedded in it.

I made a few small changes and moved one of Francesca's comments so one has my name on it while others have Francesca's name. Does anyone know how to change the identifier on the comment bubbles to something generic like "EPA"? I think that's what's preferred but I can't remember how to do it. Thanks.

Subject: RE: Draft Agency Response to IG Scientific Integrity Report 2.28.20 ORM edits_KCD.docx

All,

Good afternoon. Francesca, thanks for making the edits. It looks good to me. I contacted OSIM yesterday regarding the planned response to OIG rec 6 to implement the e-clearance for scientific products across the agency – waiting to hear back from Jerry.

Good news. The OIG has granted ORD and OA the 2-week extension to submit the joint response – now due to OIG by March 27th. Even though we have some additional time, could OSAPE please send a draft response for the IOAA's review to ORD's audit team (ORD.AuditTeam@epa.gov) at the earliest.

Thank you,

Maureen Hingeley

Hi all – I think I captured all our discussion. Please let me know if I am missing any edits.

Thanks

Francesca
